

PROJECT PREFAB PROVIDER DISCUSSION GUIDE & WORKSHEET

The questions and topics below are intended to serve as a starting point – a questionnaire and discussion topics between you and your Prefab Provider. These answers should prompt more questions and dialogue - bringing you closer to a Prefab solution for your project.

1. Is Prefab the correct solution for my project and what are the pros & cons? _____

2. What percentage of your work is on-site versus off-site construction? _____
3. What is the primary material of your Prefab Provider solution? _____
4. At what location(s) does your Prefab Provider fabricate its system/products? _____
5. Does your Prefab Provider include Comprehensive, Limited or Singular services? _____

6. Is your Prefab Provider licensed/certified/in compliance with Local, State & National Building Codes? If so, which? _____

7. Will your solution comply with specific local governing Planning/Zoning regulations? _____
8. What is a precise time frame for design approval, permitting, fabrication & construction? _____

9. Is your Prefab solution customizable and if so, what is the impact on cost and/or timing? _____

10. How long has your Prefab Provider been in operation? _____
11. Can my Prefab Provider refer to a Case Study - a process, outcome & overall experience with a similar past client? _____

12. Can I visit my Prefab Provider's fabrication facility as well as a current & finished construction project? _____

ADDITIONAL NOTES:
